

DDPMREAL  
ALL\_FUEL  
VRN: RANGE ROVER - MODEL YEAR 1998 6.00

## FUELLING

Please wait for gauges to appear

Current fuel quantity is an indication of demand, it will therefore vary with load. e.g. Operation of the air con clutch (if fitted) will require fuel quantity compensation for the increased load.  
The current fuel quantity may rise momentarily above the limiting quantity  
However it should then drop back to below the limiting quantity.
